ASSISTANT, ASSOCIATE OR FULL PROFESSOR

Division of Epidemiology
Department of Public Health Sciences
University of Rochester Medical Center

The Department of Public Health Sciences at the University of Rochester School of Medicine and Dentistry is recruiting tenure-track faculty in Infectious Disease Epidemiology. The department is seeking outstanding candidates with a demonstrated research interest in the areas of prevention, intervention, or etiological research in infectious diseases. The University of Rochester is well known for its excellent collaborative and interdisciplinary environment. Multiple opportunities in research, educational and community-based programs are available through the Clinical and Translational Sciences Institute, the Center for AIDS Research, and the Center for Community Health (a site for the national Emerging Infections Program of the CDC) in addition to those in the Department of Public Health Sciences.

Successful candidates are expected to attract extramural support, demonstrate excellence in teaching in the extensive training programs in the Department of Public Health Sciences and the University of Rochester School of Medicine and Dentistry, and expand partnerships within the university and the community. All applicants must hold a doctoral degree in epidemiology or in a closely-related field of science with a strong emphasis on research design and statistical methods. She or he should have a minimum of two years of postdoctoral research experience with an established record of publications in peer-reviewed journals. A demonstrated ability to obtain extramural funding is desirable.

For more information about the Department of Public Health Sciences, visit http://www.urmc.rochester.edu/public-health-sciences. The University of Rochester is an equal opportunity employer. Women and minority candidates are encouraged to apply. Review of applications will continue until a successful candidate is identified. Interested individuals should submit a letter of application, curriculum vitae, and the names and contact information for three references to:

Edwin van Wijngaarden, Ph.D.
